Subject: **NPDES Construction General Permit Tracking No. TNR148979.10**
Master Tracking Number: TNR148979
Hillwood Subdivision, Sec. 2, Lot 7
Beazer Homes - Nashville Division
Murfreesboro, Rutherford County, Tennessee

Dear Mr. Tobias:

You recently submitted a Notice of Intent (NOI) form as part of an application package to obtain coverage under a General NPDES Permit for Storm Water Discharges Associated with Construction Activity. The Division of Water Resources (the division) acknowledges receipt of the most recent version of the application for the above referenced project on March 10, 2015. After review, the application was deemed to be complete on March 10, 2015. Enclosed is the Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, etc.

Contractor Information

We do not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

Threatened and Endangered Species

The receiving stream for a construction site for which the NOI was submitted has federal or state listed threatened and endangered species in the area, or downstream of your project. Storm water discharges and storm water discharge-related activities that are not protective of legally protected listed or proposed threatened or endangered aquatic fauna in the receiving stream; or discharges or activities that would result in a 'take' of a federally listed endangered or threatened fish or wildlife species are not authorized by the general permit. If the division finds that storm water discharges or storm water related activities are likely to result in any of the above effects, the division will deny the coverage under this general permit unless and until project plans are changed to protect the listed species. In addition, discharges from your construction site that result in harm to such species may incur additional fines and penalties from the US Fish and Wildlife Service and/or the Tennessee Wildlife Resources Agency.

Annual Maintenance and Coverage Termination

Effective July 1, 2014, permit fees for the CGP have been revised. In addition to new application fee amounts, annual maintenance fees are now required for projects that exceed one year of coverage. Permittees wishing to terminate coverage must submit a completed notice of termination (NOT) form, which is available on the division's construction stormwater webpage at http://www.tn.gov/environment/permits/conststrm.shtml.

The division will review the NOT for completeness and accuracy and, when necessary, investigate the proposed site for which the NOT was submitted. The division will notify the applicant that either the NOT form was received and accepted, or that the permit coverage is not eligible for termination and has not been terminated. If applicable, the notification will include a summary of existing deficiencies.

We appreciate your attention to the general construction storm water permit and its requirements. A copy of the CGP can be obtained from http://tn.gov/environment/permits/conststrm.shtml. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Ms. Ann Morbitt at (615) 687-7119 or by e-mail at *Ann.Morbitt@tn.gov*.

Sincerely,

Ann Morbitt
Environmental Program Manager

STATE OF TENNESSEE

NPDES PERMIT

Tracking Number TNR148979.10

NOTICE OF COVERAGE UNDER THE GENERAL NPDES PERMIT FOR STORMWATER DISCHARGES ASSOCIATED WITH CONSTRUCTION ACTIVITY (CGP)

Tennessee Department of Environment and Conservation
Division of Water Resources
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, TN 37243

Under authority of the Tennessee Water Quality Control Act of 1977 (T.C.A. 69-3-101 et seq.) and the delegation of authority from the United States Environmental Protection Agency under the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 (33 U.S.C. 1251, et seq.):

Name of the Construction Project:	**Hillwood Subdivision, Sec. 2, Lot 7 (1 acres)**
Master Tracking Number at the Site:	**TNR148979**
Permittee Name:	**Beazer Homes - Nashville Division**
Contractor(s):	**Beazer Homes Nashville Division (March 10, 2015)**
is authorized to discharge:	storm water associated with construction activity
from site located at:	**Almar Knot Dr., Rutherford County**
to receiving waters named:	**Puckett Creek**

in accordance with effluent limitations, monitoring requirements and other conditions set forth herein.

Likely presence of threatened or endangered species in one mile radius: **YES**
Likely presence of threatened or endangered species downstream: **YES**

Additional pollution prevention requirements apply for discharges into waters which TDEC identifies as:
a) impaired: **NO** b) discharging into Exceptional Tennessee Waters: **NO**

Your coverage under the CGP shall become effective on **March 11, 2015**, and shall be terminated upon receipt of Notice of Termination.

A copy of the CGP can be obtained from http://tn.gov/environment/permits/conststrm.shtml
