Memphis, TN 38116

Subject: **NPDES Construction General Permit Tracking No. TNR150091.25**
Master Tracking Number: TNR150091
Memphis International Airport – DAA Auto Auctions Parking Lot
Permittee: Memphis-Shelby County Airport Authority (MSCAA)
Memphis, Shelby County, Tennessee

Dear Mr Brockman:

You recently submitted a Notice of Intent (NOI) form as part of an application package to obtain coverage under a General NPDES Permit for Storm Water Discharges Associated with Construction Activity (CGP). The Division of Water Resources (the division) acknowledges receipt of the most recent version of the application for the above referenced project on March 19, 2015. After review, the application was deemed to be complete on March 24, 2015. Enclosed is the Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, etc.

Contractor Information

We do not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

Storm Water Pollution Prevention Plan (SWPPP)

You have submitted a Storm Water Pollution Prevention Plan (SWPPP) as required by Part 1.4.2 of the CGP. Please note that the division has not performed an engineering review of the SWPPP and does not certify whether the SWPPP adequately provides for the pollution prevention requirements at the site as described in the general permit. The division acknowledges that you have submitted a SWPPP that appears to include the required components of a SWPPP. It is the responsibility of all site operators to design, implement, and maintain measures that are sufficient to prevent pollution at the referenced site, and to remain in compliance with the terms and conditions of the general permit.

Impaired Waters

The receiving stream for a construction site for which the NOI was submitted appears on the state's list of impaired stream segments for partially supporting or for not supporting its designated uses due to siltation. Since the discharge from the proposed construction site may contain significant amounts of silt, the division considers the potential for degradation to the receiving stream from the discharge to be

significant. Therefore, additional pollution prevention requirements for discharges into waters which TDEC identifies as impaired by siltation, as described in the general permit, Subpart 5.4., apply to your construction site; requirements of Section 5.4.2. apply to your construction site only if an impaired segment is located on or adjacent to the disturbed area.

Annual Maintenance and Coverage Termination

Effective July 1, 2014, permit fees for the CGP have been revised. In addition to new application fee amounts, annual maintenance fees are now required for projects that exceed one year of coverage. Permittees wishing to terminate coverage must submit a completed notice of termination (NOT) form, which is available on the division's construction stormwater webpage at http://www.tn.gov/environment/permits/conststrm.shtml.

The division will review the NOT for completeness and accuracy and, when necessary, investigate the proposed site for which the NOT was submitted. The division will notify the applicant that either the NOT form was received and accepted, or that the permit coverage is not eligible for termination and has not been terminated. If applicable, the notification will include a summary of existing deficiencies.

We appreciate your attention to the general construction storm water permit and its requirements. A copy of the CGP can be obtained from http://tn.gov/environment/permits/conststrm.shtml. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Mr. Cliff Caudle at (901) 371-3028 or by e-mail at *Cliff.Caudle@tn.gov*.

Sincerely,

Joellyn Brazile, CPESC
Environmental Program Manager
Division of Water Resources

STATE OF TENNESSEE

NPDES PERMIT

Tracking Number TNR150091.25

NOTICE OF COVERAGE UNDER THE GENERAL NPDES PERMIT FOR STORMWATER DISCHARGES ASSOCIATED WITH CONSTRUCTION ACTIVITY (CGP)

Tennessee Department of Environment and Conservation
Division of Water Resources
William R. Snodgrass Tennessee Tower
312 Rosa L. Parks Avenue, 11th Floor
Nashville, TN 37243

Under authority of the Tennessee Water Quality Control Act of 1977 (T.C.A. 69-3-101 et seq.) and the delegation of authority from the United States Environmental Protection Agency under the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 (33 U.S.C. 1251, et seq.):

Name of the Construction Project:	**Memphis International Airport – DAA Auto Auctions Parking Lot (4 acres)**
Master Tracking Number at the Site:	**TNR150091**
Permittee Name:	**Memphis-Shelby County Airport Authority (MSCAA)**
Contractor(s):	**Fossett Paving Co., LLC (March 24, 2015)**
is authorized to discharge:	storm water associated with construction activity
from site located at:	**Memphis International Airport, north of Rental Rd., south of Nonconnah Creek, Memphis, Shelby County, Tennessee**
to receiving waters named:	**Nonconnah Creek**

in accordance with effluent limitations, monitoring requirements and other conditions set forth herein.

Likely presence of threatened or endangered species in one mile radius: **NO**
Likely presence of threatened or endangered species downstream: **NO**

Additional pollution prevention requirements apply for discharges into waters which TDEC identifies as:
a) impaired: **YES** b) discharging into Exceptional Tennessee Waters: **NO**

Your coverage under the CGP shall become effective on **March 24, 2015**, and shall be terminated upon receipt of a Notice of Termination.

A copy of the CGP can be obtained from http://tn.gov/environment/permits/conststrm.shtml
